

Shape the future of Grandview Heights

MAY
16 2019

Draft Concept Designs Event

5:30 to 8:00 pm (drop-in)
Grandview Heights Community Centre
12603 63 Avenue NW

Light snacks, refreshments, and children's activities will be provided.

REFINE

The City is renewing roads, sidewalks and street lights in Grandview Heights starting in 2020 and considering other community improvements on City-owned land.

As a follow-up to the Vision Confirmation and Community Options event held on February 21, we would like to gather your input on draft concept designs for improvements in your neighbourhood.

These concept designs include:

- upgrades to parks and open space
- walkability enhancements
- traffic safety improvements

Your feedback will be used to refine the concept designs and prioritize improvements for your neighbourhood.

Other community and City-led projects in attendance include the Grandview Heights River Valley stairs rehabilitation project and the Grandview Heights Decorative Street Lighting Neighbourhood Committee.
